After installing the Maintop.
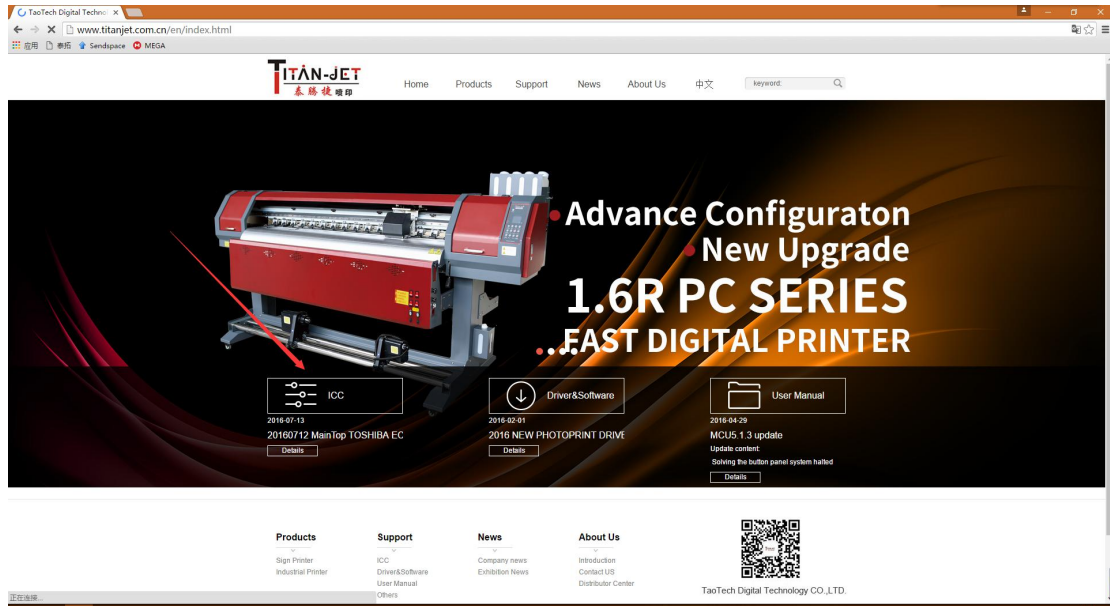

Enter "www.titanjet.com.cn" to download the ICC files from our website.

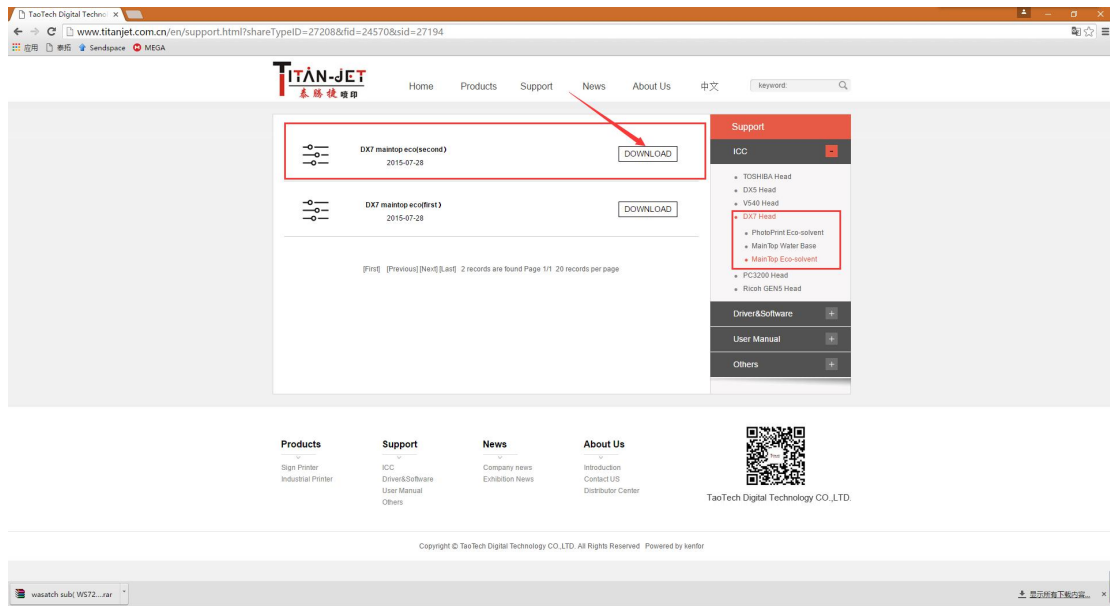

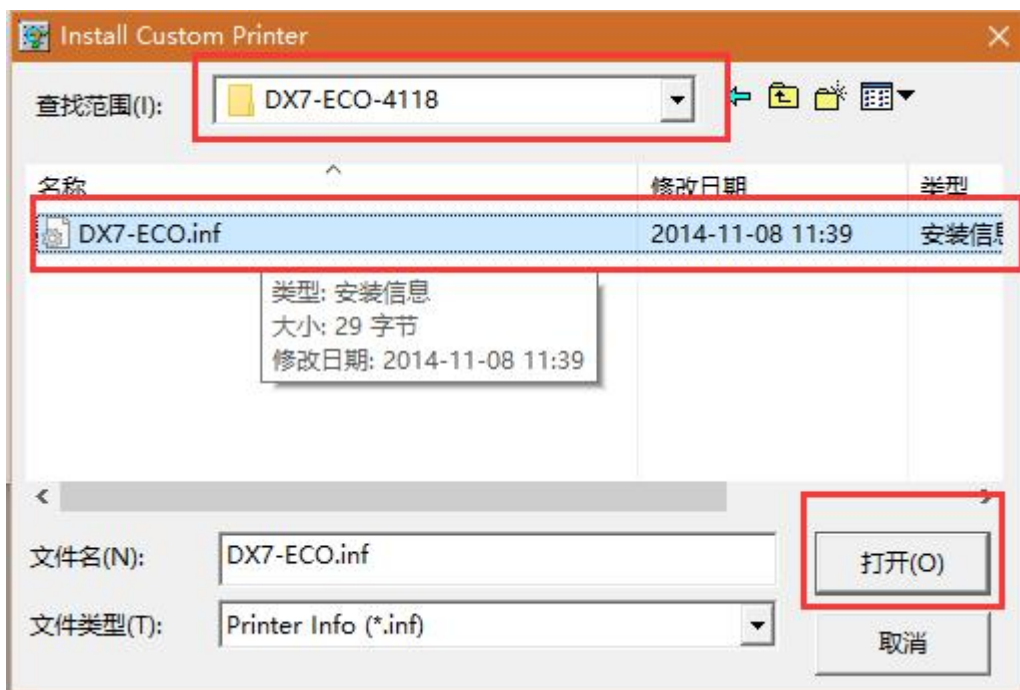

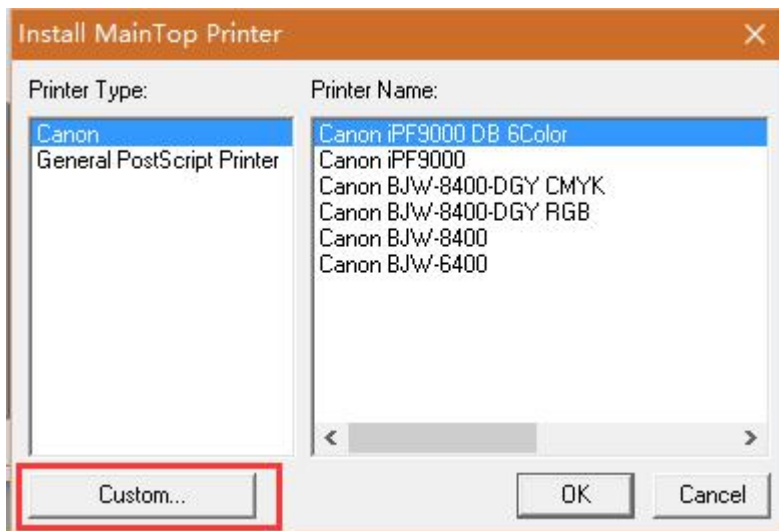

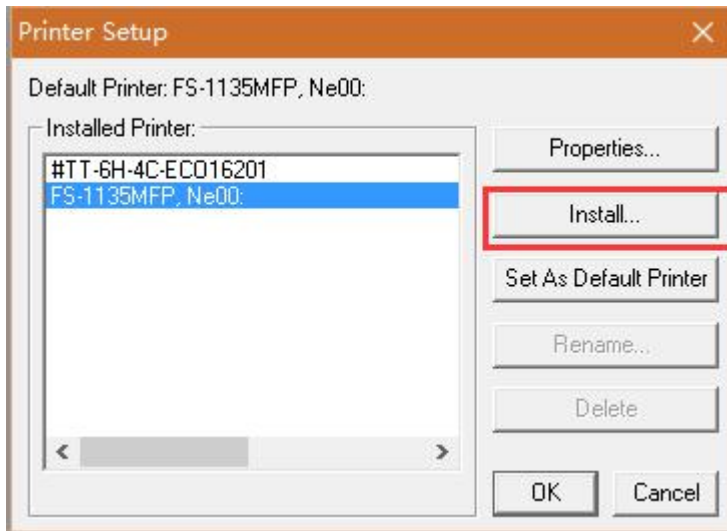

Click " ENGLISH" to change Language.

Click " ICC" to enter the download website.

Choose the corresponding option on the right side and Download.

Then uncompress the downloaded file and make sure there is no space in uncompressed folder's name.

Open the Maintop, according to this path: File--Printer Setup--Install--Custom
